PROFILE

I build small tools that take repetitive work off people's hands. I build with AI: I define the problem, direct the work, test the result by hand and decide what ships. Case studies and live demos: toolsbyraccoon.com/projects

EXPERIENCE

Admin, a community pixel-art site

October 2025 to now

- Built a safe console for database moderation scripts.
- Built a new frontend for the site, still in testing.
- Directed a first audit of more than 100 million records to find automated accounts.

Delivery driver, FedEx

January 2025 to now

Daily delivery routes.

Social media manager, Acoustix Québec

January 2023 to May 2023

- Created videos and ads with Photoshop and Premiere Pro.
- Sold items on online platforms.
- Administered the company website.

Warehouse worker, Avril Centre de Logistique et de Distribution

September 2021 to May 2022

- Moved, loaded and unloaded goods by hand, with a forklift and with an electric pallet truck.
- Put products in the right locations and checked packaging and labels.
- Worked in refrigerated and frozen zones.

Counter clerk, Couche-Tard

2020 to 2021

- Served customers and handled cash, credit and debit payments.
- Reconciled the cash with the sales total at the end of each shift.
- Closed the register, produced the cash report and made the deposits.

Counter clerk, Microplay

2018 to 2020

- Welcomed and advised customers.
- Took reservations and preorders.
- Handled the register and closed it.

SKILLS

- Turning a described problem into a working tool, with AI
- Testing tools by hand before trusting them
- Photoshop and Premiere Pro
